Software Development, *Masai School*   10/2024 – Present
Bengaluru

Bachelor of Technology in Computer Science & Engineering,   10/2020 – 09/2024
Kalinga Institute of Industrial Technology   Bhubaneswar
CGPA - 8.35

SKILLS

Languages — HTML, CSS, JavaScript, **Frameworks & Libraries** — React, NodeJS, ExpressJS, Tailwind Css, **Databases** — Firebase , MongoDB , **Tools** — Git , Postman , **Soft Skills** — Proactive Communication, Attention to Detail, Adaptability , Ownership & Initiative

PROJECTS

SmartParking System ⬈
- Built a full-stack parking management application using React and Firebase
- Implemented Firebase authentication, Firestore database, and real-time parking space availability tracking with dynamic peak-hour pricing across multiple locations.
- Developed booking system with automated lifecycle management, dark/light theming, and referral program with mutual discount tracking.
- Created responsive dashboard with protected routes, booking history with cancellation flow, and real-time listeners for instant availability updates.
- Built protected route system with context-based state management, automated booking expiration, and unit-tested pricing calculation utilities.
- GITHUB ⬈

OneShop E-Commerce Platform ⬈
- Built a full-stack e-commerce application using MERN stack with TypeScript and Tailwind CSS
- Implemented JWT-based authentication with role-based authorization and protected routes with React Router.
- Developed RESTful API with Express.js and MongoDB for product management, featuring dynamic catalog with category filtering and search functionality.
- Integrated Stripe payment gateway with shopping cart management and order tracking for users.
- GITHUB ⬈

Achievements

LeetCode: 1665 peak rating (**top 16%** in contests) , 600+ problems solved (**top 0.4%** of users)
